ENTERTAINING®

“They broke bread together in their homes and ate together with glad and sincere hearts.”

ACTS 2:46

Dear Friends,

In today's [video](#) created in collaboration with Paysage Home, we're talking Table Top! Even though I love setting a special table, whether causal or formal, it's not meant to impress our guests, but to make them feel special.

This summer we will only be gathering with our closest family and friends. Most likely, these occasions will be small, casual, and if possible, outdoors. My hope is that even with the changes in lifestyle we are experiencing, we can still make each gathering special. Enjoying dinner together is a gift. We slow down, we give thanks, we talk, we listen, we linger and enjoy each other's company. Setting a table that says, "you and our time together are special" doesn't require great expense or tremendous effort. With a little thought and with a few things on hand it can be ... *effortless!*

SEE YOU THERE!

There are so many ideas we could share about the table top, but as with our other videos, we just can't cover it all! I hope you find the ideas inspiring and the information helpful. I also hope that you're finding that Paysage and Gigi's team can be an invaluable resource. Whether you're shopping Paysage in their stores or online, their team is so talented and they are eager to help you find just what you need.

In this newsletter, we've included another EE favorite ... Lawdashion's Pork Tenderloin, also on page 191 for those who have *Effortless Entertaining*. It is sure to please, even wow your family and friends! Shared by good friend Donna Lawhon, who I hope I'll be seeing soon as we gather in small and safe groups this summer in our beloved North Carolina mountains, it will become one of your favorites too!

Even though we have completed our video series with Paysage, I look forward to sharing more inspiring ideas and practical tips in our EE videos, *The Dish* newsletter, and through our social media. While our lives have been dramatically altered, I hope to help us cherish the things we love while finding new approaches. Maybe Gigi will make a few cameo appearances as I know how much you all love her! I'll also continue to feature a few of my favorite things from Paysage ... Poet lamps, Scott Summerfield's pears, and more!

I've enjoyed this time with Paysage and you, and I look forward to more "virtual" gatherings ... *from our home to yours.*

With gratitude,
