Dear Friends,

# *Our last **30 Days to Effortless Entertaining** workshop for 2025 and registration closes **tomorrow!***

If you've been waiting, hoping, or wondering if this is "the right time" ... this email is your answer.

---

## *Let me address what might be holding you back:*

### "I'm so busy, I don't have time for a workshop."

That's exactly WHY you need this. The workshop is designed to GIVE you time back through systems and strategies. Videos are 15-20 minutes. "Homework" (very fun!) is 30 minutes or less. You'll save hours on every future gathering. Plus, with **lifetime access,** you can go at your pace.

**One participant told me:**

*"I was too busy NOT to do this. The time I've saved since learning these systems has been incredible."*

### "What if I'm not good at cooking/decorating/organizing?"

That's exactly who this is FOR! I'm not teaching you to be Martha Stewart or anyone else. I'm teaching you to be the best version of YOURSELF. We work with what you have, who you are, and what you enjoy.

### "I'm worried I can't afford it right now."

**The workshop is $325**, about the same cost as a fine dinner for two. This workshop transforms how you host for the rest of your life for one nice dinner Plus, with the fall bonuses included it's worth even more!

### "What if I start and don't finish?"

**That's the beauty of lifetime access!** Start now, finish later. Come back during busy seasons. Join future workshops free. There's no pressure, just support.
